

2010 RESOLVING NEIGHBORHOOD CONFLICTS: Building Skills for Success

Memorial Auditorium
970 South 4th Street
2nd Floor Ballroom
(Corner of 4th and Kentucky Streets)
Accessible to persons with disabilities

Have you ever experienced these or other similar challenging situations?

- Your neighbor's dog barks and awakens you several nights a week
- A neighbor wants to convert his garage into an apartment and you're concerned about noise, house values dropping, etc.
- You disagree with a developer's plans for building in your neighborhood
- Your neighbor has constructed a fence on what you consider to be your property.
- Neighborhood teenagers are congregating at businesses and on the sidewalks in a three block area, causing disruption for the businesses and pedestrians

Whether you're facing these difficulties as an individual or as a neighborhood, homeowner or condo association, you can acquire skills to help negotiate an outcome that is workable for everyone.

\$5 Registration fee for the workshop

Workshop

You will learn:

- Sources of conflict
- Skills to help you communicate better
- How to listen to understand
- To focus on interests, not positions
- How to work toward win-win solutions
- To be a change agent for your neighborhood
